## 1. The Company's capital adequacy

The Company, as a public company, has focused on overseeing and managing business and building up confidence for insureds, shareholders, investors and any related parties, This is considered as the essential part of its operation and responsibilities, including risk management specified in the Notification of the Insurance Commission: Criteria, Procedures, and Conditions for Supervising Enterprise Risk Management and Own Risk and Solvency Assessment of Non-life Insurance Companies B.E. 2562 (2019). In addition, the Company has risk management in various areas that could affect related parties by using Risk Based Capital Framework, Risk Appetite, and Stress Testing to analyze events and scenarios that may have negative impact on the Company's performance and capital, for example, major claim payments, disaster, loss from investment, etc.

The Company's capital adequacy ratio required by the law was higher than the minimum requirement of the Office of Insurance Commission (OIC). According to the stress test results, related parties will be confident that the Company's capital level was sufficient and higher requirement of the law, even any disastrous events occur as specified in the assumptions
